INTRODUCTION

Publications

Statistics Canada responsibilities in the Canadian statistical system concern the whole range of statistics on economic and social activities in Canada. The number of subjects dealt with is therefore quite large. This catalogue lists approximately 1,250 publications grouped by subject areas, and designed to include the statistical information for each area which is most commonly used. It is obviously impossible to publish compilations which will serve every purpose or need. Therefore, users should keep in mind that a considerable volume of unpublished information is available from Statistics Canada on request.

Data Files and Unpublished Information

In addition to providing regular information on the publications program, this catalogue contains a section on data files and unpublished information. The descriptions provided are in sufficient detail in most cases for the placing of orders. Included with the description for each subject area is the title of the officer or the name of the section to contact for further information. If in doubt, you should contact the Inquiries Section, Statistics Canada, telephone 992-2959, or 995-7844, area code 613. Like all information from Statistics Canada, data files are subject to the clauses of the Statistics Act which protect organizations and persons from individual disclosure.

For further details on the availability of data files and unpublished information, please refer to Part II of this catalogue. See page 332.

Publications

Au sein du système statistique canadien, Statistique Canada a pour fonction de publier la statistique de toute la gamme de l'activité économique et sociale au Canada. Son catalogue contient environ 1,250 titres de publications groupées par sujet et destinées à fournir des renseignements statistiques sur chacun des domaines où l'information est le plus en demande. Il est évidemment impossible de publier des statistiques qui répondent à absolument tous les besoins. Les utilisateurs se rappelleront donc qu'il existe une masse de renseignements non publiés qu'ils peuvent obtenir en s'adressant à Statistique Canada.

Fichiers de données et classements spéciaux

Outre les renseignements ordinaires sur le programme de publications, le présent catalogue contient une section consacrée aux fichiers de données et aux renseignements non publiés. Les descriptions sont assez détaillées pour que l'on puisse passer des commandes, dans la plupart des cas. Elles s'accompagnent du titre du fonctionnaire ou du nom de la section à qui l'on peut s'adresser pour de plus amples renseignements dans chaque domaine particulier. Dans le doute, on doit se mettre en rapport avec la Section des renseignements, Statistique Canada, numéro de téléphone 992-2959 ou 995-7844, indicatif régional 613. Comme tous les renseignements de Statistique Canada, les fichiers de données sont assujettis aux dispositions de la Loi sur la statistique, qui protège les organismes et les particuliers contre la divulgation de renseignements individuels.

L'introduction à la 2^e partie du présent catalogue donne des détails sur la façon d'obtenir des fichiers de données ou des renseignements non publiés. Voir page 332.

Local Access to Statistics Canada Publications

Statistics Canada has 8 regional offices located in St. John's, Halifax, Montreal, Ottawa, Toronto, Winnipeg, Edmonton and Vancouver, and each of them (with the exception of Ottawa which is served by the headquarters Inquiries Section) keeps on the premises a file of current publications available for public use. Also, Statistics Canada publications are generally available at libraries including the National Library, provincial legislature libraries, major public libraries and university libraries.

The Statistics Canada library in Ottawa contains a complete collection of all bureau publications issued since it was founded in 1918. A catalogue of this collection is available. See listing for catalogue number 11-504. The library has begun a program of consigning to microfiche all bureau publications from 1918 to the present day. These microfiches will be available at cost. Anyone interested in the project could contact the Library, Statistics Canada, Ottawa K1A 0T6, Ontario.

How to Use this Catalogue

For the seasoned user of Statistics Canada information, the table of contents beginning on page 3 will lead him to the statistics he wants. For the non-expert however, the title, subject, and commodity index beginning on page 350 will usually be helpful. It contains several thousand entries arranged in alphabetical order and is cross-referenced to show the several publications (if such is the case) in which information on a given subject may be found.

Concerning the catalogue numbering system, it will help to know that:

- (1) the first digit of the number indicates the major group (manufacturing, transportation, etc.);

Accès aux publications de Statistique Canada

Statistique Canada a huit bureaux régionaux, qui sont situés à Saint-Jean (T.-N.), à Halifax, à Montréal, à Ottawa, à Toronto, à Winnipeg, à Edmonton et à Vancouver, et chacun d'eux (sauf celui d'Ottawa, qui est desservi par la Section des renseignements du bureau central) conserve un fichier des publications courantes que le public peut consulter sur place. De plus, on peut généralement trouver les publications de Statistique Canada à la Bibliothèque nationale, dans les bibliothèques des assemblées législatives des provinces, dans les grandes bibliothèques publiques et dans les bibliothèques universitaires.

La bibliothèque de Statistique Canada à Ottawa possède la collection complète de tous les ouvrages publiés par le bureau depuis sa fondation en 1918. On peut se procurer le catalogue de cette collection, qui porte le numéro de catalogue 11-504. La bibliothèque a commencé à reproduire sur microfiches tous les ouvrages publiés par cet organisme fédéral de 1918 jusqu'à nos jours. Ces microfiches seront vendues au prix de revient. Toute personne intéressée au projet est priée de s'adresser à la Bibliothèque de Statistique Canada, Ottawa K1A 0T6, Ontario.

Comment se servir du catalogue

Celui qui utilise souvent les renseignements de Statistique Canada pourra trouver les publications statistiques qu'il désire en consultant la table des matières à la page 3. Quant au non-initié, l'index des titres, des sujets et des produits qui commence à la page 495 pourra lui être utile. Il contient plusieurs milliers d'inscriptions disposées par ordre alphabétique, avec des renvois indiquant les publications où l'on peut trouver des renseignements sur un sujet donné.

Pour ce qui est de la numérotation du catalogue, il convient de signaler que:

- 1) le premier chiffre du numéro indique le grand groupe (fabrication, transports, etc.);

- (2) the second digit indicates the sub-group of the major group; for example, under manufacturing, textiles and apparel, wood products;
 - (3) the third digit indicates the frequency of publication, such as occasional, annual or more than once a year;
 - (4) the fourth and fifth digits are permanent numbers for each publication.
- 2) le deuxième chiffre représente le sous-groupe, par exemple sous fabrication; textiles et vêtements, articles en bois;
 - 3) le troisième chiffre marque la fréquence des publications: hors série, annuelles ou publiées plus d'une fois par année;
 - 4) les quatrième et cinquième chiffres sont des numéros permanents, propres à chaque publication.

How to Order Publications

When ordering Statistics Canada publications please keep in mind the following points:

- (1) Send your order to Publications Distribution, Statistics Canada, Ottawa, K1A 0T6.
- (2) Please quote the catalogue number as well as the publication title when ordering.
- (3) Please enclose payment with your order. Cheques or money orders should be made payable to the Receiver General of Canada. (For your convenience, arrangements can be made through Statistics Canada Publications Distribution to open a deposit account with Information Canada. You may deposit an amount sufficient to cover approximately three month's requirements (a minimum of \$10) against which publications can be ordered in future.
- (4) You can order the Full Publication Service (\$600 per year) and receive all Statistics Canada publications automatically as soon as they are released. This does not include Census publications which are priced at \$300 for the 1971 series on population, agriculture, households and families, and the labour force. **It should be noted that prices of individual publications are subject to change without notice.**

Commandes de publications

Dans toute commande de publications de Statistique Canada, veuillez suivre les indications suivantes:

- 1) Adressez la commande à la Distribution des publications, Statistique Canada, Ottawa, K1A 0T6.
- 2) Indiquez le numéro de catalogue ainsi que le titre de la publication.
- 3) Envoyez le paiement avec la commande. Les chèques et les mandats se font à l'ordre du Receveur général du Canada. (Pour faciliter les choses, la Distribution des publications de Statistique Canada peut vous ouvrir un compte auprès d'Information Canada. Vous y déposez un montant suffisant pour prévoir approximativement vos besoins pour trois mois (minimum de \$10), duquel est déduit le prix des publications commandées par la suite.
- 4) Vous pouvez vous abonner au service complet des publications (moyennant \$600 par an) et recevoir automatiquement toutes les publications de Statistique Canada dès leur parution. Ce service n'inclut pas les publications du recensement, dont la série de 1971 sur la population, l'agriculture, les ménages et les familles et la population active coûte \$300. **Il est à noter que le prix de toute publication peut être modifié sans préavis.**

- (5) If you find it more convenient, Statistics Canada publications may also be ordered from Information Canada bookstores in the following cities: Halifax, Montreal, Ottawa, Toronto, Winnipeg, Vancouver.
- (6) Discounts are allowed under certain conditions, the main ones being on sales to Federal Government Departments, to independent retailers, to libraries and on bulk orders of 1,000 copies or more. For details, please get in touch with Publications Distribution Statistics Canada.

How to Make Inquiries

If you are aware of the section of Statistics Canada to which a specific inquiry should be addressed, by all means so address it. If not, your best course is to send it to Inquiries Section, Statistics Canada, Ottawa (telephone 992-2959 or 995-7844, area code 613).

If you wish to telephone Statistics Canada for information and are using long distance, it is obviously best if you can contact the appropriate Statistics Canada section with your first call. The Inquiries Directory on page 11 contains the Statistics Canada telephone numbers most commonly used by the public. Because the names of officers who answer inquiries in the various Statistics Canada divisions sometimes change, the names are not included, and the telephone numbers have been listed by the most common headings and subheadings of subjects to be dealt with. If in doubt about whom you should call, please contact the Inquiries Section.

WALTER E. COWELL,
Chief,
Inquiries Section,
Statistics Canada, Ottawa.

- 5) Pour plus de commodité, on peut également commander les publications de Statistique Canada aux librairies d'Information Canada dans l'une ou l'autre des villes suivantes: Halifax, Montréal, Ottawa, Toronto, Winnipeg, Vancouver.
- 6) Des remises sont consenties dans certains cas, notamment aux ministères de l'État, aux détaillants indépendants, aux bibliothèques et sur les commandes de 1,000 exemplaires ou plus. Pour plus de détails, veuillez communiquer avec la Distribution des publications, Statistique Canada.

Demandes de renseignements

Si vous savez quelle section de Statistique Canada peut vous fournir des renseignements particuliers, adressez-vous à elle. Sinon, le mieux est d'envoyer votre demande de renseignements à la Section des renseignements, Statistique Canada, Ottawa (téléphone 992-2959 ou 995-7844, indicatif régional 613).

Si vous communiquez avec Statistique Canada par l'interurbain, il est évidemment préférable que votre premier appel vous mette en communication avec la section du bureau qui vous sera utile. Le Répertoire des services, page 11, de renseignements reproduit ci-dessous renferme les numéros de téléphone les plus couramment utilisés par le public. Vu que les noms des fonctionnaires qui répondent aux demandes dans les différentes divisions sont sujets à modification, ils ne figurent pas dans le Répertoire et les numéros de téléphone sont inscrits selon les titres et les sous-titres des sujets le plus couramment traités. Si vous n'êtes pas certain de savoir qui appeler, veuillez communiquer avec la Section des renseignements.

WALTER E. COWELL,
chef,
Section des renseignements,
Statistique Canada, Ottawa.

CANSIM

CANSIM – Canadian Socio-Economic Information Management System is a fully computerized time series “data bank” containing current and historical information for the most widely used economic statistics of Canada. Because it is a long-term project, data (time series) will be stored and made available from this data bank in an increasing volume. When fully developed, the system will provide machine-readable data from a large base, possibly encompassing the total output of published statistics from Statistics Canada and other data sources.

Le CANSIM (système canadien d'information socio-économique) est une “banque de données” entièrement automatisée contenant les séries chronologiques et courantes les plus en demande en matière de statistique économique au Canada. Comme il s'agit d'un programme à long terme, les données (séries chronologiques) que l'on pourra ainsi stocker et extraire à volonté seront de plus en plus nombreuses. Lorsque le système aura atteint sa forme définitive, il fournira des données lisibles par une machine à partir d'une vaste base de données qui pourra englober la totalité des statistiques publiées du Statistique Canada ainsi que des statistiques provenant d'autres sources.

12-530 CANSIM: Operational Manual for Data Entry. E. and F. 60 pp.

This manual will be of practical interest only to federal government agencies which store and maintain time series in the CANSIM data base. Users desiring a fuller knowledge of the codes used and the storage methodology will find this volume a useful companion to the *Retrieval Manual* (12-531). \$1

12-530F CANSIM: Manuel d'entrée des données du système CANSIM. A. et F. 60 pages.

Ce manuel n'offre un intérêt pratique que pour les organismes du gouvernement fédéral qui se servent du système CANSIM pour le stockage et la tenue à jour de leurs séries chronologiques. Les utilisateurs désirant se familiariser avec les codes employés et les méthodes de stockage des données trouveront en ce manuel un complément utile au *Manuel d'extraction* (12-531F). \$1

12-531 CANSIM: Users' Manual for Data Retrieval and Manipulation. E and F.

Gives detailed instructions on procedures for obtaining data on magnetic tape from the CANSIM data base. The initial very rudimentary retrieval package described will be enlarged and improved; the manual will be expanded and modified accordingly. Existing *commands* will, however, continue to be supported. \$1.50

12-531F CANSIM: Manuel d'extraction et de manipulation des données. A. et F.

Ce manuel donne tous les détails sur les démarches à accomplir pour obtenir sur bande magnétique la restriction des données de la base CANSIM. Les premières possibilités, encore très rudimentaires, de restitution décrite dans le manuel seront augmentées et perfectionnées et le manuel sera révisé en conséquence. Les opérations existantes resteront toutefois toujours valables. \$1.50

- 13-534 **Income Distributions by Size in Canada, 1967.** E. and F. Approx. 83 pp.

Estimates of family and individual incomes by size of income and by major source, region, age, sex and other characteristics. Data are comparable to the 1965 publication (13-528) and pertain to all individuals and families living in private households. The appendix contains a few non-farm income distributions that are comparable to previous reports and the data published in the historical summary covering selected years 1951-1965 (13-529). \$1

- 13-534F **Répartition du revenu au Canada selon la taille du revenu, 1967.** A. et F. Environ 83 pages.

Estimations du revenu des familles et des particuliers par taille de revenu et par principale source, par région, par âge, par sexe et suivant certaines autres caractéristiques. Les données sont comparables à celles qui figurent dans le bulletin de 1965 (13-528) et se rapportent à tous les particuliers et à toutes les familles vivant dans des ménages privés. En appendice, on trouve quelques répartitions du revenu non agricole qui sont comparables à celles qui ont paru dans les bulletins antérieurs et aux résultats publiés dans le sommaire récapitulatif pour certaines années entre 1951 et 1965 (13-529). \$1

- 13-535 **Earnings and Work Experience of the 1967 Labour Force.** 46 pp.

Earnings of male and female earners by size of earnings in 1967 and various personal characteristics. Distribution of families and unattached individuals by size of income and the work experience of the family head in 1967. Some comparisons with similar 1961 data. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75¢

13-536 Statistics on Low Income in Canada, 1967. 49 pp.

Low income cut-offs established for the analysis of the 1961 Census data were updated by the rise in the Consumer Price Index and all families and unattached individuals were categorized as having had incomes above or below these income cut-offs in 1967. Tables show distributions of low income families and individuals by characteristics such as work experience of family head, place of residence and other socio-demographic characteristics and contrast these with distributions of families and unattached individuals above the income cut-offs. Incidence of low income is estimated for many types of families and individuals, often showing in addition average family income, average family size, average number of children, etc. The data were obtained from the Survey of Consumer Finances taken in the Spring of 1968. 75¢

13-538 Family Income (Census Families), 1967. 21 pp.

Distributions of census families and persons not in families by size of their income, major source, region, age, sex and other characteristics. Discussion of differences in family definition; comparison of numbers and incomes of census families and economic families, also for persons not in families and unattached individuals (economic family definition). 50¢

13-539 Comparative Income Distributions, 1965 and 1967. 58 pp.

Section I includes estimates for the two years of individual income recipients, and families and unattached individuals by income size group measured in constant (1961) dollars. Tables show distributions by age, sex, family size, region, etc. Section II of report consists of tables describing the composition of income quintiles in the two years. This report updates estimates published in Catalogue 13-529 except that the data coverage is no longer restricted to non-farm families and individuals. 75¢

13-542 Income Distributions by Size in Canada, 1969 Preliminary Estimates. 21 pp.

Estimates of family and individual incomes by size of income, region, family size, number of children, age and sex (of family head or individual). 24-501	Survey of the Canadian Sea Fishing Industry, 1965. Bil. 12 pp.	
--------	--	--

First undertaking to collect establishment statistics for the fishing industry. Statistics consistent with the Standard Industrial Classification and establishment concept are presented. As fishing is not a manufacturing industry the description of the principal statistics had to be somewhat modified to meet conditions peculiar to the industry. In addition to basic industry statistics data such as capital investment are also presented.

- 24-501 Enquête sur l'industrie de la pêche en mer au Canada, 1965. Bilingue. 12 pages.

Premier recueil de renseignements statistiques sur les établissements de l'industrie de la pêche. Les statistiques y sont présentées sur la base de la Classification type des industries et de la notion de l'établissement. Comme la pêche n'est pas une industrie manufacturière, il a fallu modifier légèrement la formulation des statistiques principales pour tenir compte des conditions particulières de cette industrie. Outre les statistiques de base, on y trouve des données sur les immobilisations.

3: MANUFACTURING – FABRICATION

Description of Reports

Publications listed under “Manufacturing” relate to Division 5 of the *Standard Industrial Classification*.

These publications consist of a large number of reports, some of which provide summarized and analytical information for manufacturing as a whole and others which provide detailed information on individual manufacturing industries or on various commodities.

Although titles of the various reports are broadly indicative of the subject matter covered, explanatory notes have been included under title headings where necessary. Such notes are generally restricted to reports dealing with the manufacturing industries as a whole (sub-group 31) and to those publications dealing with commodities. The reports on individual industries are generally similar to each other in character and include such principal statistics as: number of establishments, number and type of employees and their salaries and wages, cost of fuel and electricity, value of shipments of goods of own manufacture, and value added. Comparative statistics are given for Canada for earlier years and for the preceding year for provinces. Also shown are the value and, where applicable, quantities of major products shipped and purchased materials used by establishments classified to the industry. Some reports also show total manufacturers' shipments of relevant commodities without regard to industry of origin, but this is given comprehensively for all commodities in an annual report on products shipped by Canadian manufacturers.

Description des bulletins

Les publications classées sous “Manufactures” se rapportent à la branche 5 de la *Classification des activités économiques*.

Le nombre de ces bulletins est élevé. Certains présentent des renseignements résumés et analytiques sur l'industrie manufacturière dans son ensemble, tandis que d'autres fournissent des statistiques détaillées sur une industrie donnée ou sur divers produits.

Bien que les titres soient suffisamment explicites quant au contenu des bulletins, des notes explicatives ont été ajoutées sous le titre, partout où cela a été jugé nécessaire. En général, on a réservé ces notes aux bulletins qui traitent de l'industrie manufacturière dans son ensemble (sous-groupe 31) ou qui portent sur les produits. Les bulletins qui traitent d'industries individuelles sont en général présentés selon un schéma commun et comprennent des renseignements que l'on retrouve d'un bulletin à l'autre: nombre d'établissements, effectif, catégorie et rémunération des employés, coût du combustible et de l'électricité, valeur des expéditions des marchandises produites dans les fabriques, valeur ajoutée. Des données comparatives sont indiquées, pour les années antérieures en ce qui concerne le Canada et pour l'année précédente en ce qui concerne les provinces. Les bulletins donnent également la valeur et, dans la mesure du possible, les quantités des principaux produits expédiés et des matières achetées par les établissements faisant partie de l'industrie décrite. Quelques bulletins donnent également le total des expéditions de produits généralement fabriqués par l'industrie en question, y compris celles des établissements classés dans d'autres industries et qui, à titre d'activité secondaire, fabriquent ces produits. Ces données sont présentées de façon complète, pour tous les produits, dans un bulletin annuel sur les produits expédiés par les fabricants canadiens.

Primarily due to the fact that annual surveys cannot be initiated until the end of the calendar year and to the time required to collect, edit and compile extensive data, most annual industry reports are not available until a year or more after the end of the year of survey. However, two-page preliminary bulletins providing data on shipments of goods of own manufacture and on principal statistics by province are issued to subscribers as soon as the statistics on individual industries are compiled, expediting their availability to users considerably. Other preliminary bulletins are also published relating to manufacturing as a whole.

In addition there are a large number of publications which are published more frequently than once a year and which contain current information on commodities (generally shipments, production or consumption). Although not exactly suitable to industry analyses, except in the case of one-industry commodities, they have proven to be most useful in commodity analyses.

Current estimates of the value of shipments, inventories and orders for manufacturing industries in total, numerous sub-aggregations and selected industries are issued monthly. They are based on a sample survey of establishments representing about 75% of the shipments, determined from the Census of Manufactures.

Parce que les enquêtes annuelles ne peuvent être menées avant la fin de l'année civile et aussi parce qu'il faut beaucoup de temps pour recueillir, contrôler et compiler la masse considérable de données, la plupart des bulletins ne sont publiés que dans un délai d'un an ou plus après la fin de l'année de l'enquête. Cependant, des bulletins préliminaires in-folio, contenant les expéditions des marchandises produites dans les fabriques et les principales statistiques, par province, sont envoyés aux abonnés aussitôt que les données sur les industries individuelles ont été élaborées. D'autres bulletins provisoires portent sur l'activité manufacturière dans son ensemble.

Il existe, en outre, un grand nombre de publications qui paraissent plus d'une fois par année et qui présentent des statistiques courantes sur les produits (expéditions, production ou consommation). Ces publications, quoique ne convenant pas à l'analyse globale d'une industrie donnée, sauf dans le cas de produits fabriqués par une seule industrie, se sont révélées fort utiles à ceux qui s'attachent à l'analyse des produits eux-mêmes.

On publie mensuellement des estimations courantes sur la valeur des livraisons, des stocks et des commandes des industries manufacturières dans leur ensemble, par sous-groupes et suivant certaines branches d'activité. Ces chiffres sont tirés d'une enquête fragmentaire auprès des établissements représentant environ 75% des livraisons et établie à partir du recensement des manufactures.

61-510 Indexes of Real Domestic Product by Industry, 1961 - 69, 1961 = 100. E. and F. Approx. 90 pp.

Introduces monthly RDP indexes and covering revisions to the Real Domestic Product (RDP) by industry of origin data (including its Index of Industrial Production component) for the 1961 - 69 period. The revisions include the incorporation of the latest annual and quinquennial census levels, the final 1961 industry weights, revised seasonal adjustment, new monthly indicators and revised methodology. The report updates the system of Real Domestic Product indexes published in occasional paper (61-506), and contains annual, quarterly and monthly tables, providing data for a wide range of industries and industry groups for the period from 1961 to 1969. The newly-developed monthly Real Domestic Product indexes are featured in tables 2 and 3 for the 1961 - 69 period. Quarterly indexes are included for the convenience of users. These revised data are kept up-to-date in the monthly report, "*Indexes of Real Domestic Product by Industry* (Including the *Index of Industrial Production*)" (61-005) beginning with the December, 1970 issue. \$1

61-510F Indices du produit intérieur réel, par industrie, 1961 - 1969/1961 = 100. A. et F. Environ 90 pages.

Présente les indices mensuels et les indices révisés du produit intérieur réel (y compris l'indice de la production industrielle, élément du précédent) par industrie d'origine, pour la période écoulée de 1961 à 1969. Comprend également, au titre des révisions, les niveaux aux derniers recensements annuel et quinquennal, la pondération finale des industries pour 1961, des données désaisonnalisées rectifiées, de nouveaux indicateurs mensuels et une méthodologie révisée. Met à jour le système des indices du produit intérieur réel publiés dans le document hors série portant le numéro 61-506 au catalogue et renferme des tableaux annuels, trimestriels et mensuels de données sur un grand nombre d'industries ou groupes d'industries, pour la période écoulée de 1961 à 1969. Les Tableaux 2 et 3 présentent des indices mensuels, récemment mis à point, du produit intérieur réel de la même période. Les indices trimestriels y figurent également pour accommoder les utilisateurs. Ces données révisées sont continuellement mises à jour dans le bulletin mensuel "*Indices du produit intérieur réel par industrie* (incluant l'indice de la production industrielle)" (61-005) depuis le numéro du mois de décembre 1970. \$1

Reports in the Operating Results series (63-401 to 63-413 and 63-424 to 63-428, inclusive) contain ratios of gross profit (percentage of net sales), operating expense items and net profit, as well as averages of sales and inventories and information on turnover. All of the most significant retail trades are covered in a three-year cycle. Beginning with 1963 the food trades were surveyed. General merchandise stores, apparel and dry goods stores, hardware stores and appliance stores were surveyed for 1964. Remaining trades were surveyed for 1965. A new cycle began with food stores being surveyed for 1966, but the series was suspended during 1967-70. Some bulletins of the former series of retail operating results are still available.

1961 Census Monographs Monographies sur le recensement de 1961

- 99-541 **Trends and Factors of Fertility in Canada**, by Jacques Henripin. E. and F. 425 pp.

An analysis of fertility based on the censuses and vital statistics for Canada from the XVIIth century to the present. Investigates past changes in fertility by referring more particularly to the historical trends of certain factors which have had an effect on fertility: age distribution, nuptiality, legitimate fertility and illegitimate fertility. Studies fertility variations in relation to certain phenomena that have long been related to fertility: type of residence, age at marriage, country of birth, ethnic origin, mother tongue, religion, occupation of husband, educational attainment, income, and labour force status of women. Examines certain particular aspects of fertility: birth intervals, birth order, and illegitimate fertility. The appendices contain technical notes describing various procedures of assessment and estimation as well as observations on the value of the sample. \$4.50

- 99-541F **Tendances et Facteurs de la Fécondité au Canada**, par Jacques Henripin. A. et F. 425 pages.

Une analyse de la fécondité basée sur l'exploitation des recensements et des statistiques de l'état civil du Canada, du XVII^e siècle à nos jours. Cette monographie: sonde l'évolution passée de la fécondité en se rapportant plus particulièrement aux tendances historiques de certains facteurs qui ont influé sur la fécondité: distribution par âge, nuptialité, fécondité légitime et fécondité illégitime; étudie les variations de la fécondité en fonction de certains phénomènes depuis longtemps associés à la fécondité: habitat, âge au mariage, pays de naissance, origine ethnique, langue maternelle, religion, profession du mari, niveau d'instruction, revenu et travail de la femme; examine certains aspects particuliers de la fécondité: intervalles entre naissances, rang de naissance et fécondité illégitime. Les appendices contiennent des notes techniques décrivant divers procédés d'évaluation et d'estimation de même que des remarques sur la valeur de l'échantillon. \$4.50

- 99-542 **Urban Development in Canada**, by Leroy O. Stone. 300 pp.

A study of the urban population in Canada 1871 to 1961, describing and analysing its growth, geographical distribution and sex-age composition. Discusses some demographic aspects of metropolitan growth in Canada, and describes the increasing concentration of the Canadian population into the principal areas of metropolitan development. Reviews indicators of major historical trends and selected aspects of sex-age composition and features of the age profile of net migration ratios for census metropolitan areas, and some larger cities. The appendices contain detailed definitions of concepts and technical notes describing various data processing and estimating procedures. \$3

- 99-543 **Trends in Canadian Marketing**, by M.S. Moyer and G. Snyder. 320 pp.

An in-depth study of marketing, covering primarily the period from 1930 to 1964. Discusses changes in such functions as buying, selling, transportation, storage, standardization and grading, etc. Describes the evolution of such institutions as department stores, corporate and voluntary chain stores, shopping centres, independent stores, etc. Comprehensive appendices describe the methods and techniques employed in deriving the data used throughout the monograph. \$4

99-544 **Incomes of Canadians**, by Jenny R. Podoluk. 356 pp.

Analyzes various aspects of the income distribution in Canada, using income data collected from non-farm households on the 1961 Census of Canada and on the Surveys of Consumer Finances conducted for inter-censal years. Discusses the sources of incomes of the adult population, the relationship between earnings and characteristics of the labour force such as occupation, sex and education, and the private rates of return to education. The structure of family income is examined by the family life cycle and family composition. Discusses regional income disparities and factors associated with them and, at the national level, the low income population and the incidence of low income by various family characteristics. One chapter is devoted to an income profile of the aged who constitute a significant proportion of the low income population. Changes in the income distribution in real terms and trends in income inequality between 1951 and 1961 are summarized. The appendix outlines sources and methods, the relationship of the estimates to the personal income in the National Accounts and comments on the reliability of the estimates.

99-546 **The Impact of Immigration on Canada's Population**, by Warren E. Kalbach. 465 pp.

Examines post-war immigration in its historical context, i.e., as a continuation of trends in the foreign-born population resulting from variations in the size as well as character of immigration throughout both pre-World War II and post-war periods. Growth and distribution in relation to Canada's population is illustrated by analysing the age and sex structure, ethnic composition and population mobility. The resemblance of native-born population and pre-war immigrants in relation to their demographic contribution is examined. Political identification and integration is covered at a very elementary level by means of the citizenship status of post-war immigrants who had been resident in Canada for a sufficient period of time to attain eligibility.

99-548 **Migration in Canada, Regional Aspects**, by Leroy O. Stone. 407 pp.

Describes and analyses some of the major patterns of migration in Canada, provides a focus on regional differentials in migration flow, and studies measures of migration rates for provinces, urban areas, metropolitan areas and counties and census divisions. A major purpose of this volume is to provide a treatment of migration in Canada which brings out specific patterns and associations relevant to the role of migration in regional development. The general theme of this work can be said to be the regional patterns and socio-economic aspects of migration in Canada. This monograph is based mainly on census statistics, particularly those from the 1961 Census of Canada.

- 99-556 **The Growth of Manpower in Canada**, by Frank T. Denton. 83 pp.

Examines the growth of the population and labour force since the middle of the nineteenth century. The contributions of internal migration and changes in birth and death rates are considered. Attention is paid to important changes in the composition of the population and the labour force which are related to growth, including changes in age structures, male-female ratios, rural-urban and farm, non-farm shares, the labour force participation of men and women, and regional or provincial distributions. **75¢**

- 99-557 **Internal Migration in Canada, Demographic Analyses**, by M.V. George. 249 pp.

Measures and describes the types, volume, trends, streams and patterns of internal migration in Canada, with special emphasis on interprovincial movement. Analyses the interrelations of population growth with internal migration, and lays a basis for further exploration of the demographic, economic and social effects of migration within Canada. Based on census data from 1931 through 1961, including estimates of migration based on birth-residence data. Complements "Migration in Canada: Some Regional Aspects" (Catalogue No. 99-548). **\$2**

CENSUS PUBLICATIONS

1966

(Agriculture and Population)

Final results of the 1966 Census of Canada relating to Population and Agriculture were issued in the form of individual reports as the information become available. The reports are in four series, as follows:

- (1) **Advance Series.** — These reports provide advance summary information on specified basic topics.
- (2) **Volume Series.** — Reports in this main series are so prepared that they can be combined to form the contents of each of five census volumes. A titled cover binder is supplied with orders for the complete set of reports for a given volume.
- (3) **Census Tract Series.** — Basic population data are issued for each of the larger centres (or metropolitan areas) according to these intracity statistical areas which have been delineated for cities of over 50,000.
- (4) **Special Series.** — Reports in this series contain specified materials not included in any of the foregoing series.

PUBLICATIONS DU RECENSEMENT DE 1966

(Agriculture et population)

Les résultats définitifs du recensement du Canada de 1966, pour ce qui est de la population et de l'agriculture, ont été publiés sous forme de rapports distincts à mesure que les renseignements sont devenus disponibles. Ces rapports se répartissent en quatre séries principales, comme il suit:

- (1) **Série anticipée.** — Ces rapports donnent, sous une forme concise, des renseignements anticipés sur certains sujets fondamentaux.
- (2) **Série des volumes.** — Les rapports qui composent cette série principale sont présentés de manière que, réunis, ils forment le contenu de chacun des cinq volumes du recensement. On fournit, avec chaque commande d'une série complète formant un volume, un auto-relieur titré.
- (3) **Série des secteurs de recensement.** — Cette série comprend les données sur la population de chaque grande agglomération (ou zone métropolitaine) fondées sur les secteurs statistiques délimités aux fins du recensement dans chaque ville de plus de 50,000 habitants.
- (4) **Série spéciale.** — Les rapports de cette série contiennent des données particulières qui ne sont publiées dans aucune des séries susmentionnées.

Census Tract Series

Individual reports in this series present basic population, household and family characteristics for statistical areas (i.e., census tracts) within 28 of the larger urban centres and metropolitan areas. Each report contains an index map outlining the locations of the census tracts for that particular centre. (See also Catalogue No. 92-615 in the Volume I Series.)

Série des Secteurs de Recensement

Les rapports de cette série présentent des données de base sur la population, les ménages et les familles à l'égard de secteurs statistiques (c'est-à-dire les secteurs de recensement) établis dans 28 grandes agglomérations urbaines et zones métropolitaines. Chaque rapport comporte une carte où sont indiqués les secteurs de recensement de l'agglomération en cause. (Voir aussi le rapport numéro 92-615, volume I.)

1966 Census Publications (Merchandising and Service Establishments)

Final results of the 1966 Census of Canada relating to merchandising and service establishments were issued in three series of reports as follows:

- (1) **Advance Series.** — These reports provide advance summary information on specified basic topics.
- (2) **Volume Series.** — Reports in this main series are so prepared that they can be combined to form the contents of each of three census volumes. A titled cover binder is supplied with orders for the complete set of reports for a given volume.
- (3) **Census Tract Series.** — Basic data are issued for each of the metropolitan areas according to these intracity statistical areas.

Publications du Recensement de 1966 (Établissements de commerce et de services, 1966)

Les résultats définitifs du recensement du Canada de 1966, pour ce qui est des établissements de commerce et de services, ont été publiés en trois séries principales de rapports, comme il suit:

- (1) **Série anticipée.** — Ces rapports donnent, sous une forme concise, des renseignements anticipés sur certains sujets fondamentaux.
- (2) **Série des volumes.** — Les rapports qui composent cette série principale sont présentés de manière que, réunis, ils forment le contenu de chacun des cinq volumes du recensement. On fournit, avec chaque commande d'une série complète formant un volume, un auto-relieur titré.
- (3) **Série des secteurs de recensement.** — Cette série comprend des données de base sur chaque zone métropolitaine, suivant les secteurs statistiques.

CENSUS PUBLICATIONS 1971

Final results of Canada's Eleventh Decennial Census of 1971 are being issued in a variety of formats. These are described in the following paragraphs.

Published Reports

This catalogue presents a partial listing of the main results that are to be published in the form of hard copy reports. A complete listing will be available in a later edition. These comprise four main series as follows:

- (1) **Advance Series:** These reports provide summary information on specified topics for which there is widespread demand and are published earlier than the regular series of volume reports.
- (2) **Volume Series:** Reports in this series represent the main statistical results of the 1971 Census and are prepared in such a way that the user can combine the contents to form the subject-matter of each volume of the 1971 Census. A hard-cover binder suitably titled will be supplied to those ordering at one time the complete set of reports for any given volume part.
- (3) **Census Tract Series:** Basic population and housing data will be issued for each of the large cities (or metropolitan areas) according to census tracts (i.e., small areas of approximate uniformity in population size and composition).
- (4) **Special Series:** This series contains some basic materials not included in the regular Volume Series and which relate to more specialized subject classifications or provide more detailed areal classifications of basic distribution of population data.

PUBLICATIONS DU RECENSEMENT DE 1971

Les résultats définitifs du onzième recensement décennal du Canada sont publiés sous diverses formes, dont on trouvera une brève description ci-après.

Bulletins

Ce catalogue donne une liste partielle des principaux résultats qui seront publiés sous forme de bulletins. On trouvera le répertoire complet dans une édition ultérieure. Les bulletins seront répartis en quatre séries principales:

- 1) **Série préliminaire:** Ces bulletins renferment des renseignements sommaires sur certaines données fondamentales très en demande; ils sont publiés plus tôt que la série régulière des volumes.
- 2) **Série des volumes:** Les bulletins de cette série donnent les principaux résultats du recensement de 1971 et se présentent de telle sorte que les utilisateurs peuvent les réunir par sujet. Un autodeliure titré à couverture rigide sera fourni à ceux qui achèteront la série complète des bulletins constituant un volume.
- 3) **Série des secteurs de recensement:** Des données de base sur la population et le logement sont publiées pour chacune des grandes villes (ou régions métropolitaines) par secteur de recensement (étendue à peu près uniforme quant à la taille et la composition de la population).
- 4) **Série spéciale:** Cette série présente des données fondamentales qui n'apparaissent pas dans la série régulière des volumes et qui ont trait à des sujets plus spécialisés; on y trouve également des classifications régionales plus détaillées des répartitions de base des données démographiques.

Computer Tapes, Print-outs and Microform

In addition to the tabular results listed in this catalogue for release in the form of reports or bulletins, a large number of tables will be published in the form of computer print-outs, and will be available to users in xerox or microform.

Summary tables will also be available on computer tape for further computer analysis as required by users. In some cases, these print-outs and tapes will contain tables in more detail than the published tabulations, while in others, they will relate to smaller geographical areas (e.g., enumeration areas).

Details concerning the content, prices, and availability of census results in these media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T6. (See paragraph on "How to Order".)

Maps and Geographic Files

Large-scale maps depicting the boundaries of enumeration areas and other statistical areas can be purchased from the 1971 Census. These include an urban map series, a rural map series and a census tract map series showing enumeration areas (i.e., the territory covered by each enumerator in taking the census). In addition, small-scale maps will be available depicting census divisions and other statistical areas.

Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) will be available in tabular form identifying the components of administrative and statistical units (i.e., towns, villages, municipalities,

Bandes d'ordinateur, états mécanographiés et microcopies

En plus des bulletins dont la liste apparaît dans ce catalogue, Statistique Canada publiera un large éventail de tableaux sous forme d'états mécanographiés; les utilisateurs pourront s'en procurer des photocopies ou des microcopies.

Les utilisateurs pourront également obtenir des tableaux sommaires sur bande d'ordinateur et en tirer les analyses de leur choix. Dans certains cas, ces imprimés et ces bandes comprendront des tableaux plus détaillés que ceux qui apparaissent dans les publications. Dans d'autres cas cependant, ces tableaux porteront sur de plus petits secteurs géographiques (les secteurs de dénombrement, par exemple).

On pourra obtenir des détails sur le contenu, le prix et les moyens de se procurer ces supports en s'adressant au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T6. (Voir le paragraphe "Commandes").

Cartes et fichiers géographiques

Les utilisateurs pourront également se procurer des cartes à grande échelle des secteurs de dénombrement et d'autres secteurs statistiques. Ces cartes comprennent une série urbaine, une série rurale et une série des secteurs de recensement dans laquelle apparaissent les limites des secteurs de dénombrement (territoires couverts par chaque agent recenseur). De plus, on pourra se procurer des cartes à petite échelle des divisions de recensement et d'autres secteurs statistiques.

Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) seront disponibles sous forme de tableaux présentant les différents éléments des unités administratives et statistiques (villes, villages, municipalités et secteurs de

tracts). The tables will show the composition of these units in terms of enumeration areas. This documentation will be available also on magnetic tape.

Materials on Microfilm

Since the published reports are released in a priority order based on user interest and availability of tabulations, it will be impossible to provide a complete series of reports in continuous micro-filmed form prior to the issuance of that complete series.

Before completion of a given series of reports, however, individual reports from this catalogue will be available in micro-film roll or microfiche form. Unpublished tables will also be available on microfilm.

A subsequent catalogue will show these sets of reports which have been prepackaged on film, and their prices.

Special Tabulations

As far as confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the main programme. This service will commence shortly after the editing of the data is completed, in the fourth quarter of 1972, and will continue during the intercensal period. Wherever possible, these special tabulations will be handled through a newly developed Geographically Referenced Data Storage and Retrieval system (GRDSR) and other generalized retrieval techniques including CASPER. In cases where these systems can be applied, both time and cost factors should be reduced substantially. The GRDSR system is designed to provide flexibility in the types of geographical areas (i.e., user-defined areas) for which special tabulations can be produced.

recensement). Les tableaux feront voir également la composition des divers secteurs de dénombrement composant ces unités. Ces documents seront également disponibles sur bandes magnétiques.

Microfilms

Comme les bulletins sont publiés suivant un ordre prioritaire fondé sur les besoins des utilisateurs et la disponibilité des tableaux, il sera impossible d'obtenir une série complète de bulletins sur microfilm avant la parution de tous les bulletins de la série.

Toutefois, il sera possible d'obtenir des microfilms ou des microfiches de bulletins individuels avant qu'une série donnée de bulletins soit entièrement publiée. On pourra également se procurer sur microfilm des tableaux non publiés.

On trouvera dans une édition ultérieure du catalogue la liste des groupes de bulletins qui ont été mis sur film et leur prix.

Tableaux spéciaux

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira à l'intention des utilisateurs qui en acquitteront les frais des tableaux spéciaux qui ne font pas encore partie du programme principal. Ce service sera inauguré peu après que le contrôle des données sera terminé (au cours du quatrième trimestre de 1972) et se poursuivra tout au long de la période intercensitaire. Lorsque cela sera possible, ces tableaux passeront par le nouveau Système de stockage et d'extraction de données codées suivant une grille géographique (GRDSR) et par d'autres systèmes connus d'extraction des données (y compris le CASPER). Ces systèmes permettront d'importantes économies de temps et d'argent. Le système GRDSR est conçu de façon à pouvoir donner des tableaux spéciaux pour un large éventail de secteurs géographiques (c.-à-d. les secteurs que les utilisateurs délimiteront eux-mêmes).

How to Order

(a) Published Reports

Publications of the 1971 Census of Canada may be ordered according to instructions contained on page 9 of the Introduction to this catalogue. Reports not yet in print will be sent as soon as they become available.

(b) Other materials

Information in regard to materials in the form of computer tapes, print-outs, microfilm, as well as special tabulation requests, maps and geographic files, may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T6.

Census Data Newsletter

A Census Data Newsletter is published periodically to provide users with information regarding the nature and availability of census data. To receive this newsletter write to the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T6.

Commandes

a) Bulletins

Pour commander les publications du recensement de 1971, on voudra bien se conformer aux instructions de l'introduction au catalogue (page 9). Les bulletins à venir seront expédiés dès parution.

b) Autres données

Pour obtenir des renseignements sur les commandes de documents sous forme de bandes d'ordinateur, d'imprimés, de microfilms, ainsi que de tableaux spéciaux, de cartes et de fichiers géographiques, communiquer avec le Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T6.

Actualités du recensement

Statistique Canada publie périodiquement un bulletin qui présente aux utilisateurs la nature et la date de publication des données du recensement. Pour recevoir ce document, on s'adresse au: Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T6.

Census Tract Series

Reports in the Census Tract Series present basic population, housing, household, family and labour force characteristics for statistical areas (i.e., census tracts) within each of 29 larger urban centres and census metropolitan areas. Two reports are being issued for each tracted centre – one providing distributions of 100 p.c. data ("A" series) and the other containing classifications of sample data ("B" series). Each report contains an index map outlining the locations of the census tracts for that particular area.

"A" Series

Census tract reports in the "A" series present basic distributions by age, sex, marital status, and mother tongue as well as family and household size and composition, and housing attributes of tenure, type of dwellings, number of rooms, and sanitary facilities.

Série des secteurs de Recensement

Les bulletins de la série des secteurs de recensement présentent les caractéristiques de base de la population, du logement, des ménages, des familles et de la population active de secteurs statistiques (c.-à-d. les secteurs de recensement) de 29 grands centres urbains et régions métropolitaines de recensement. Il y a deux bulletins par centre découpé en secteurs de recensement; l'un présente les répartitions des données intégrales (série "A") et l'autre des classements de données fragmentaires (série "B"). Chaque bulletin contient une carte qui délimite les secteurs de recensement de la région observée.

Série "A"

Les bulletins de la série "A" présentent des répartitions de base selon l'âge, le sexe, l'état matrimonial, la langue maternelle, la taille et la composition des familles et des ménages et certains attributs du logement comme le mode d'occupation, le genre de logement, le nombre de pièces et les installations sanitaires.

PART II

Data Files and Unpublished Information

Part II of this catalogue consists of two main elements, data files and information apart from data files which is generally described as unpublished information. This latter is information which may be useful to a limited number of individuals or organizations, but which is not published because the interest in it is not considered to be sufficiently broad.

Data files include summary tapes and punch card decks. In cases where costs are not indicated, estimates of cost will be provided before the work is undertaken. The charge for punch card decks is basically \$3 per thousand plus an additional \$2 per thousand on the number interpreted.

Unpublished information includes special tabulations, copies of special statements, computer print-outs, and so on. Like all information issued by Statistics Canada, however, unpublished information is subject to the limitations of the Statistics Act which prevent the disclosure of information on individual persons or companies. In instances where the request can be met without a considerable amount of time and effort involved, there is no charge. In cases where the work to be done is substantial, or a special tabulation is needed, a charge may be made, but in most cases it is not large. In cases where charges are not specified in this catalogue, an estimate of cost will be provided before the work is undertaken.

Some unpublished non-statistical information, technical papers and maps such as census maps are also available.

Your dealings in all cases would be with the director of the subject area division which produces the information you are interested in. The directors' titles and addresses are provided at the end of each description of the material.

PARTIE II

Fichiers de données et renseignements non publiés

La Partie II du présent catalogue concerne d'une part les documents mécanographiques, d'autre part les renseignements non ordinairement publiés sous forme d'imprimés. Il s'agit de renseignements qui peuvent servir à un nombre restreint de particuliers ou d'organismes, mais qui ne sont pas imprimés parce que le nombre des utilisateurs n'est pas jugé suffisant.

Les documents mécanographiques se composent de bandes récapitulatives et de jeux de cartes perforées. Dans les cas où le prix n'est pas indiqué, on fournira une estimation du coût avant d'entreprendre les travaux. Le prix de base des jeux de cartes perforées est de \$3.00 les 1,000 cartes, prix auquel il faut ajouter \$2.00 suivant le nombre de données interprétées.

Les renseignements non publiés se présentent sous forme de tableaux spéciaux, de reproductions d'états spéciaux, d'états mécanographiques, etc. Comme toute l'information publiée par Statistique Canada, toutefois, les renseignements non imprimés sont assujettis aux restrictions de la loi sur la statistique qui défend de divulguer des données individuelles concernant les particuliers ou les sociétés. Si la réponse à une demande de renseignements n'exige pas trop de temps et de travail, elle est donnée gratuitement. Si elle exige beaucoup de travail ou une mise en tableau spéciale on mettra les frais en compte, mais dans la plupart des cas ces frais ne seront pas élevés. Dans les cas où le présent catalogue ne mentionne pas les frais, on fera connaître au client le prix estimatif avant d'entreprendre le travail.

Des renseignements non imprimés de nature non statistique, des documents techniques et des cartes de recensement et d'autres cartes géographiques semblables sont également disponibles.

Dans tous les cas, on voudra bien s'adresser au directeur de la division dont relèvent les renseignements désirés. La fonction et l'adresse des directeurs figurent à la fin de la description du document.

Business Finance

Capital and Repair Expenditures:

Annual capital and repair expenditures for sub-divisions of the major industry groups in manufacturing in the years 1960 to 1972 are available from the Capital Expenditures Section.

Fixed Capital Flows and Stocks:

Estimates of fixed capital flows and stocks in manufacturing for the years 1961 to 1970 are available from the National Wealth and Capital Stock Section. These estimates are extensions of the 1926-1960 series published¹ in "Fixed Capital Flows and Stocks—Manufacturing—Canada 1926-1960, Methodology," Catalogue 13-522, and "Fixed Capital Flows and Stocks—Manufacturing Canada 1926-1960, Statistical Supplement," Catalogue 13-523. Also available are estimates of the flows and stocks of capital in a number of non-manufacturing sectors of the economy, including Agriculture, Forestry, Fishing, Mining, Construction, Trade, Transportation, Storage, Communications, Public Utility Operations, Institutional Services and Government Departments.

Orders for these statements should be sent to the Business Finance Division, Statistics Canada, Ottawa. The telephone number is 994-9622, Area Code 613.

Census

From the 1971 Census of Canada, a large amount of statistical information not published as reports will be made available in the form of computer print-outs, summary tapes, and microform. Reference to these materials is made at

Finances des entreprises

Dépenses en immobilisations et frais de réparation:

Les dépenses en immobilisations et les frais de réparation pour les subdivisions des groupes de l'industrie manufacturière sont présentés par année, pour les années 1960 à 1972, par la Section des immobilisations.

Flux et stocks de capital fixe:

Des estimations des flux et stocks de capital dans l'industrie manufacturière, pour les années 1961 à 1970, sont offertes par la Section de la richesse nationale et des stocks de capital. Ces estimations constituent un prolongement de la série 1926-1960 publiée dans *Fixed Capital Flows and Stocks, Manufacturing, Canada, 1926-1960: Methodology* (numéro de catalogue 13-522) et dans "Flux et stocks de capital fixe, industries de la fabrication, Canada 1926-1960, Supplément statistique," (numéro de catalogue 13-523). Sont aussi disponibles des estimations des flux et stocks de capital dans certaines branches d'activité non manufacturière, soit l'agriculture, l'exploitation forestière, la pêche, l'extraction minière, la construction, le commerce, les transports, l'entreposage, les communications, les services d'utilité publique, les services institutionnels et les ministères de l'État.

Les commandes doivent être adressées à la Division des finances des entreprises, Statistique Canada, Ottawa, au téléphone (613) 994-9622.

Recensement

Un grand nombre de renseignements statistiques, provenant du recensement de 1971 du Canada et non publiés dans des bulletins, seront mis à la disposition des intéressés sous forme d'imprimés d'ordinateur, de bandes de données sommaires et

page 267 of this catalogue where the availability of 1971 Census information is described.

Certain unpublished data, (principally computer print-outs and summary tapes for enumeration areas) are available also from the 1961 and 1966 Censuses.

Details on these unpublished materials of the 1961-71 Censuses may be obtained from the User Inquiry Service, Census Division, Statistics Canada, K1A 0T6.

Education

The Education Division provides statistics, commentary and analyses to the education community in Canada and internationally, through annual publications and special studies.

Some special studies have taken the form of regional publications, compendia of statistics and analysis of education in the Atlantic provinces, the Western provinces, and Canada's northland. An additional regional study, *A Century of Education in British Columbia: Statistical Perspectives*, was prepared to coincide with British Columbia's centennial. These regional studies facilitate the publishing of current comparative statistics.

Other special reports include: *Federal and Provincial Student Aid in Canada*; *Characteristics of Students Receiving Aid in Canada*; and *Facilities for the Study of the Arts in Canada*.

A monthly Education Service Bulletin, which presents tables and analytic text, facilitates the rapid release of current education data, preliminary figures and special statements.

de microcopies. On trouvera à la page 267 du présent catalogue des précisions sur ces documents et sur les moyens de se les procurer, au même titre que toutes les autres données du recensement de 1971.

Certaines données non publiées (en majeure partie des imprimés d'ordinateur et des bandes de données sommaires), sur les secteurs de dénombrement provenant des recensements de 1961 et de 1966, sont également disponibles.

Pour de plus amples renseignements sur ces documents non publiés des recensements de 1961 à 1971, on peut s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, K1A 0T6.

Éducation

La Division de l'éducation publie des bulletins annuels et des études spéciales renfermant des statistiques, des commentaires et des analyses à l'intention des personnes qui s'intéressent à l'enseignement au Canada et dans d'autres pays.

Certaines études spéciales ont pris la forme de publications régionales, de résumés statistiques et d'analyses de l'enseignement dans les provinces de l'Atlantique, les provinces de l'Ouest et le Nord canadien. Une autre étude régionale ayant pour titre *Cent ans d'enseignement en Colombie-Britannique: Rétrospective statistique* a été publiée pour commémorer le centenaire de la Colombie-Britannique. Ces études régionales facilitent la publication de statistiques courantes de comparaison.

D'autres bulletins spéciaux ont été publiés dont *Aide fédérale et provinciale accordée aux étudiants du Canada*, *Characteristics of Students Receiving Aid in Canada*, et *Programmes d'enseignement des arts au Canada*.

Un bulletin de service mensuel sur l'éducation, qui renferme des tableaux et des analyses, facilite la publication rapide de données courantes sur l'enseignement, de chiffres provisoires et de comptes rendus spéciaux.

Imports — Concordance between T.I. and B.T.N.

A set of two volumes has been prepared for domestic and international use.

The first volume consists of a complete print-out of a concordance from Canada Tariff Item via the Import Commodity Classification to the Standard International Trade Classification and thence to the Brussels Tariff Nomenclature. The second volume provides the same information, but is arranged in B.T.N. order.

It is up to date to 31/12/69 and also to 1/1/72 and is available at \$35.00 Can. per set.

Imports or Exports — Special Studies

On request, special studies of import and export commodities can be undertaken to provide detail beyond that provided by the Commodity Classification, subject to the availability of appropriate descriptions on customs documents and also to the secrecy provisions of the Statistics Act. Studies are priced on a cost recovery basis in addition to a \$50 per class feasibility study charge.

Requests for additional information concerning these services should be directed to the Trade Information Section, External Trade Division, Statistics Canada, Ottawa, telephone 992-2848 or 992-8896, area code 613.

Household Facilities and Equipment

Following is a list of unpublished data which can be obtained upon request:

A. Canada, by Province

1. Households with radios, showing number with telephones and T.V. sets.
2. Households with T.V. sets, showing number with telephones and radios.

Importations — Concordance du T.D. avec la N.B.

Deux volumes ont été préparés à des fins nationales et internationales.

Le premier est un imprimé d'ordinateur complet de la concordance du Tarif douanier du Canada, par l'intermédiaire de Classification des marchandises d'importation et de la Classification type pour le commerce international, avec la Nomenclature de Bruxelles. Le second volume donne les mêmes renseignements dans l'ordre de la N.B.

A jour au 31 décembre 1969 ainsi qu'au 1/1/72. Prix: \$35 (canadiens) pour les deux volumes.

Importations ou exportations — Études spéciales

On peut exécuter sur demande des études spéciales sur les marchandises d'importation et d'exportation, renfermant des renseignements plus détaillés que ceux qui figurent dans la Classification des marchandises, pourvu que les descriptions appropriées figurent dans les documents douaniers et que les dispositions de la Loi sur la statistique relatives au secret soient respectées. Ces études sont facturées au prix coûtant plus \$50 par classe, pour l'étude de faisabilité.

On peut obtenir de plus amples renseignements sur ces services en s'adressant à la Section de l'information commerciale, Division du commerce extérieur, Statistique Canada, Ottawa, au téléphone (613) 992-2848 ou 992-8896.

Requests for this information should be sent to the Consumer Finance Research Staff, Statistics Canada, Ottawa. The telephone number is 992-3200, Area Code 613.

Labour Force Statistics

Monthly estimates of the population, labour force, employed, unemployed, not in the labour force, unemployment rates and participation rates are given, including numerous cross-classifications by age, sex, region and province, agricultural and non-agricultural industries, occupation, hours worked, number of months looking for work, and reason for absence from work. Sub-provincial data are also provided.

Detailed information may be found in *The Labour Force* (Catalogue No. 71-001). Enquiries should be directed to the Request Officer, Labour Force Survey Section, Labour Division, Statistics Canada, Ottawa, Ontario. The telephone number is 992-2750, Area Code 613.

Merchandising and Services

In addition to its regular publication program, the Merchandising and Services Division undertakes and produces a number of special tabulations.

The resulting data may be published in the Statistics Canada *Daily* or *Weekly*, as in the case of a semi-annual report on hotel receipts (based on a panel of large hotels with 50 or more rooms), or included in the Merchandising and Services "Bulletin", which is published at irregular intervals throughout the year. Other articles of interest appear from time to

On peut obtenir ces renseignements en s'adressant au Service des recherches sur les finances des consommateurs, Statistique Canada, Ottawa, au téléphone: (613) 992-3200.

Statistiques sur la population active

Ces communiqués renferment des statistiques mensuelles sur la population, la population active, les personnes occupées, les chômeurs, les inactifs, les taux de chômage et les taux d'activité, y compris de nombreux classements recoupés selon l'âge, le sexe, la région et la province, les activités (secteurs agricole et non agricole), la profession, les heures travaillées, le nombre de mois consacrés à la recherche d'un emploi, et la raison de l'absence au travail. On y trouve également des données au niveau inférieur à la province.

Des renseignements détaillés sont donnés dans le bulletin intitulé *La main-d'oeuvre* (numéro 71-001 au catalogue). Pour toute demande de renseignements, veuillez vous adresser à l'Agent d'enquête, Section de l'enquête sur la population active, Division du travail, Statistique Canada, Ottawa, Ontario. Le numéro de téléphone est 992-2750, indicatif régional 613.

Division du commerce et des services

En plus de son programme normal de publication, la Division du commerce et des services établit et produit un certain nombre de tableaux spéciaux.

Les données qui en résultent paraissent dans le *Quotidien* ou dans l'*Hebdomadaire* de Statistique Canada; tel est le cas pour la publication semestrielle des recettes des hôtels (à partir d'un échantillon constant de grands hôtels ayant 50 chambres ou plus). Elles peuvent également figurer dans le "Bulletin" du Commerce et des Services, qui paraît à intervalles irréguliers au cours

time in the *Canada Year Book*, the *Canadian Statistical Review*, or the *Statistical Observer*.

Requests for further information on these special studies and other related projects should be sent to the Director, Merchandising and Services Division, Statistics Canada, Room 212, General Purpose Building, Ottawa, Canada K1A 0V4. The telephone number is 992-3754, area code 613.

Prices and Family Expenditures

As vehicles for introducing new or up-dated price and family expenditure statistics, two numbers have been added to the catalogue listing, viz, Cat. No. 62-005, *Retail Prices and Living Costs Service Bulletin* and Cat. No. 62-006, *Construction Price Statistics Service Bulletin*.

In addition to the published price statistics, a variety of unpublished statistics are available on request. To supplement the information contained in published reference documents some technical statements are available. These statements include guidelines respecting the various uses of price statistics, e.g., the use of price statistics in escalation contracts.

A large number of unpublished tabulations, from the 1969 family expenditure survey is available, a list of which will be supplied on request. Unpublished tabulations are also available from some of the earlier surveys.

If additional work is required to make available unpublished information a fee will be charged. Requests for additional information about the foregoing unpublished material should be directed to the Prices Division, Statistics Canada, Tunney's Pasture, Ottawa, telephone 992-3913, are code 613.

de l'année. Périodiquement, on trouvera d'autres articles intéressants dans l'*Annuaire du Canada*, la *Revue statistique du Canada*, ou l'*Observateur statistique*.

Pour toute demande de renseignements supplémentaires sur ces études spéciales et autres réalisations du même ordre, s'adresser au directeur de la Division du commerce et des services, Statistique Canada, pièce 212, Édifice Polyvalent, Ottawa, Canada, K1A 0V4. On peut également appeler le 992-3754, indicatif régional 613.

Prix et dépenses des familles

Pour la présentation de données nouvelles ou mises à jour sur les prix et les dépenses des familles, deux bulletins ont été ajoutés au catalogue à savoir le bulletin de service intitulé *Prix de détail et coût de la vie* (62-005), et le bulletin de service intitulé *Statistique des prix dans la construction* (62-006).

Outre les statistiques de prix publiées, on peut obtenir sur demande diverses statistiques non publiées. En complément des renseignements contenus dans les documents de référence publiés, certaines données techniques sont disponibles. Ces données comprennent des lignes directrices relatives aux diverses utilisations des statistiques des prix, par exemple, l'emploi des statistiques des prix dans la clause d'indexation des prix.

Un grand nombre de tableaux inédits, à partir des données de l'enquête de 1969 sur les dépenses des familles, sont disponibles; la liste en est donnée sur demande. Sont également disponibles des tableaux inédits provenant de certaines enquêtes plus anciennes.

Si la production de données inédites nécessite un travail supplémentaire, des frais seront exigés. Les demandes de renseignements supplémentaires concernant les documents inédits dont il est question ci-dessus doivent être adressées à la Division des prix, Statistique Canada, Tunney's Pasture, Ottawa, numéro de téléphone 992-3913, indicatif régional 613.

Transportation and Public Utilities

The Aviation Statistics Centre provides statistical services to the Canadian Transport Commission and The Ministry of Transport, including both regular and special studies of a detailed nature. While summaries of general interest are published in the Aviation Statistics Centre Service Bulletin (Catalogue No. 51-004), (some additional material is available within resource, timeliness and confidentiality limitations or at the discretion of the C.T.C. and M.O.T.) For further information, write to the Chief, Aviation Statistics Centre, Room 1201, Congill Buildings, 275 Slater Street, Ottawa, K1A 0N9.

Special statistical information concerning transportation and public utilities is released in the transportation and communications service bulletins. Statistics are available from the Water Transport Unit on the origin and destination of both international and domestic cargoes loaded and unloaded at all unpublished ports. This information supplements similar statistics for the eight principal Canadian ports published in the *Shipping Report, Part IV, Origin and Destination for Selected Ports* (catalogue no. 54-206). Commodity origin and destination is also available for all unpublished material in similar format to that supplied in *Shipping Report, Part V, Origin and Destination for Selected Commodities* (Catalogue No. 54-207). Additional Water Transportation data are available on request from the Water Transport Unit, 8th Floor, General Purpose Bldg., Tunney's Pasture, Ottawa, K1A 0V5.

Transports et services d'utilité publique

Le Centre des statistiques de l'aviation fournit des services statistiques à la Commission canadienne des transports et au ministère des Transports, y compris des études régulières et spéciales à caractère détaillé. Le Bulletin de service (numéro de catalogue 51-004) du Centre des statistiques de l'aviation présente des résumés d'intérêt général. Toutefois, les ressources le permettant en temps utile et pourvu que la confidentialité des données soit respectée, ou à la discrétion de la Commission et du Ministère, des renseignements supplémentaires sont disponibles. S'adresser au Chef, Centre des statistiques de l'aviation, pièce 1201, édifice Congill, 275, rue Slater, Ottawa, K1A 0N9.

Des renseignements statistiques spéciaux sur les transports et les services d'utilité publique sont publiés dans les bulletins de service sur les transports et les communications. On peut obtenir à la Sous-section du transport par eau des statistiques sur l'origine et la destination des cargaisons, à destination ou en provenance du Canada ou de l'étranger, chargées et déchargées à tous les ports qui ne figurent pas dans les bulletins. Ces renseignements complètent la statistique similaire donnée pour les huit principaux ports canadiens dans *Transport Maritime Partie IV: Transport maritime international (par pays)* (numéro de catalogue 54-206). Des données non publiées sur l'origine et la destination des marchandises, disposées comme la statistique qui paraît dans *Transport Maritime Partie V: Origine et destinations de certaines marchandises* (numéro de catalogue 54-207) est aussi disponible. On peut obtenir d'autres renseignements sur le transport par eau en s'adressant à la Sous-section du transport par eau, 8^e étage, édifice Polyvalent, Tunney's Pasture, Ottawa, K1A 0V5.

La Division offre en outre des statistiques sur les services d'utilité publique, le

Statistical Publications of Other Federal Government Departments and Agencies

While Statistics Canada, as the national statistical agency, publishes statistics on nearly all subjects, there are a number of statistical publications regularly issued by other government departments and agencies. The list below grouped by a subject arrangement similar to that in the main body of this catalogue, lists those which are of general interest and which are supplementary sources to Statistics Canada publications on the subject. Priced publications are available from Information Canada, except those of the Bank of Canada. Free publications can be obtained by writing to the Information Division of the Department publishing them.

Additional information as to services and information available by direct inquiry to the individual departments and agencies of the Government of Canada is contained in the publication *Federal Services for Business*, published by the Department of Industry, Trade and Commerce, Ottawa. A comprehensive survey of statistical information contained in publications of Statistics Canada and other departments covering the area of labour can be found in *Guide to Federal Government Labour Statistics* (Statistics Canada catalogue 72-512).

Publications statistiques d'autres ministères et organismes de l'État

Bien que Statistique Canada, en tant qu'organisme national de la statistique, publie des données sur presque tous les sujets, d'autres ministères et organismes de l'État publient régulièrement des documents statistiques. Les titres ci-après répartis par sujet suivant la même disposition que dans le corps du catalogue, sont des publications d'intérêt général et constituent des sources supplémentaires de renseignements sur des sujets donnés. Les publications peuvent s'acheter chez Information Canada, sauf celles de la Banque du Canada. On peut obtenir les publications gratuites en écrivant à la Division de l'information du ministère intéressé.

Des renseignements additionnels sur les services et les publications qu'on peut se procurer en s'adressant directement aux divers ministères et organismes de l'État sont donnés dans la publication *Services fédéraux à l'intention des hommes d'affaires* du ministère de l'Industrie et du Commerce à Ottawa. Le *Guide de la statistique du travail du gouvernement fédéral* (catalogue de Statistique Canada 72-512) constitue un répertoire complet des statistiques du travail publiées par Statistique Canada et d'autres ministères.

Tabulations of immigration by age, sex, marital status, country of last permanent residence, country of birth, occupation and ethnic origin. Also includes some historical tables. More limited statistics are published on a quarterly basis in the Department's "Quarterly Immigration Bulletin".

Studies and Reports

A number of departments are engaged in programmes of analysis of trends and developments which has resulted in the publication of studies and reports which often supplement the information contained in Statistics Canada publications. For example: The Economic Council of Canada has the responsibility for engaging in and publishing studies on the medium and long term prospects of the economy. Certain of its publications contain projections of economic and social activity based on statistical information obtained from Statistics Canada. Those wishing such projections should consult the publications of the Council.

Répartition des immigrants selon l'âge, le sexe, l'état matrimonial, le pays de dernière résidence permanente, le pays de naissance, la profession et l'origine ethnique. Comprend aussi des tableaux chronologiques. Le "Bulletin trimestriel de l'immigration" renferme des statistiques semblables mais moins détaillées.

Études et rapports

Certains ministères s'occupent d'analyser les tendances et les événements; cela donne lieu à la publication d'études et de rapports qui souvent servent de complément aux statistiques publiées par Statistique Canada. Par exemple: le Conseil économique du Canada est chargé d'entreprendre et de publier des études sur les perspectives économiques à long et à moyen terme au Canada. Certaines de ses publications contiennent des projections de l'activité économique et sociale basées sur des statistiques de Statistique Canada. Ceux qui en désirent doivent consulter les publications du Conseil.

Following are examples of the Council's publications (The first four were prepared by the Council, and the last two by the Department of Manpower and Immigration):

1. *Seventh Annual Review: Patterns of Growth.*

On peut commander les publications susmentionnées à Information Canada (ci-devant Imprimeur de la Reine) en citant le titre, le numéro de catalogue et le prix. On peut consulter, dans les bibliothèques publiques et universitaires, les catalogues annuels des publications du gouvernement canadien, qui donnent la liste des études et rapports semblables. On peut se procurer une liste complète des études et rapports du Conseil économique en s'adressant au Secrétaire, Conseil économique du Canada, C.P. 527, Ottawa K1P 5V6.

Title, Subject and Commodity Index

This combined Title, Subject and Commodity Index has been designed to help users locate the required publications. It contains numerous cross-references. Numerical references are to catalogue numbers of the publications for which further descriptive information is provided in the main part of this catalogue. All main words in titles are capitalized.

While this index contains several thousand references to subject and commodity data, not all subjects and commodities covered in Statistics Canada publications are listed. Excluded are the commodities covered in export and import statistics, which are adequately indexed in Volume III of the Export and Import Commodity Classifications (Catalogue Nos. 12-523 and 12-526).

Again, the publication "Products Shipped by Canadian Manufacturers" (Catalogue No. 31-211), contains a detailed alphabetical list of commodities manufactured in Canada, showing value and amount of production for the year covered. No reference is made to the publication in the index, except where the production statistics are not shown in any other publication. However, users may assume that manufactured commodities entered as appearing in other reports also appear in 31-211.

In the case of other omissions, the entries for related items often afford a clue to where information, if available, may be found. Lastly, the coverage is increasing and those who cannot locate what they seek should send an inquiry to the Inquiries Section, Information Division.

Index des titres et des matières

Cet Index général des titres et des matières a été conçu en vue d'aider les utilisateurs à trouver les publications qu'ils désirent. Il contient de nombreux recoupements. Les références numériques renvoient aux numéros de catalogue des publications au sujet desquelles la partie principale du catalogue donne des renseignements plus détaillés.

Bien que l'index contienne plusieurs milliers de références à des sujets et à des denrées, tous les sujets et toutes les denrées mentionnées dans les publications de Statistique Canada ne sont pas énumérés. Sont exclues les denrées qui paraissent dans la statistique des exportations et des importations, qui est suffisamment indexée dans le Volume III de *Export and Import Commodity Classification* (n^{os} de catalogue 12-253 et 12-526).

En outre, le rapport détaillé intitulé «Products Shipped by Canadian Manufacturers» (n^o 31-211) contient une liste alphabétique des denrées fabriquées au Canada, qui donne, en outre, la valeur et le volume de la production pour l'année observée. L'index ne contient pas de renvois à la publication, sauf lorsque la statistique de la production n'est pas publiée ailleurs. Cependant les utilisateurs peuvent supposer que les chiffres des denrées fabriquées parus dans d'autres rapports figurent aussi dans le n^o 31-211.

Dans le cas d'autres omissions, les articles qui s'y apparentent indiquent souvent où, s'ils existent, on peut trouver les renseignements. Finalement, le nombre de publications augmente sans cesse et ceux qui ne trouvent pas ce qu'ils cherchent devront communiquer avec la Section des renseignements de la Division de l'information.

- 13-205 **Federal Government Activities in the Human Sciences Annual.** Bil. 56 pp.

Results of an annual survey of departments and agencies of the Federal government which devote resources for the support of activities in the field of human sciences. Data were collected for the following activities: research and development (R&D), general data collection, scientific information, education support, and operations studies. *See* 13-545. 75¢

- 13-205 **Activités de l'administration fédérale en sciences humaines.** Annuel. Bilingue. 56 pages.

Résultats d'une enquête couvrant la plupart des organismes et ministères fédéraux affectant des ressources au soutien d'activités dans le domaine des sciences humaines. Des données furent recueillies pour les activités suivantes: recherche et développement (R & D), cueillette de données, information scientifique, aide à l'éducation et études d'opérations. *Voir* 13-545. 75¢

- 13-537 **Econometric Study of Incomes of Canadian Families, 1967.** Occasional. 50 pp.

Cross-sectional data from the Survey of Consumer Finances taken in Spring 1968 were used in multiple regressions in order to rank and quantify the influence of socio-economic characteristics on the level of family income in 1967. The study examines the effects of variables such as age, sex, education and occupation of the family head, the labour force participation of the wife and the place of residence of the family (rural or urban with some subdivision for city size) on family income in the five regions and in Canada. 75¢

- 13-538 **Family Incomes (Census Families), 1967.** Occasional. 21 pp.

Estimates of incomes of families and persons not in families by size of income and by major source, region, sex, age and other characteristics. The concept of family used in this report is identical to that employed in Canadian censuses. The data pertain to all census families and persons not in families in private households. 50¢

- 13-540 **Household Facilities by Income and Other Characteristics, 1968.** Occasional. 180 pp.

Presents data on the interrelationships of household incomes and household facilities and equipment. This report is based on the data from the 1968 Surveys of Consumer Finances and of Household Facilities and Equipment. It contains distributions of households by and within household income size groups, by region, by household type and other characteristics. \$2

- 13-541 **Socio-economic Characteristics of the Population Age 14 to 24, 1967.** Occasional. 67 pp.

From the data collected in the Spring of 1968 in the Survey of Consumer Finances special statistical tables on the incomes and work experience of young people (aged 14 to 24) in 1967 were compiled. Special attention is paid to the family circumstances of the young people. Some regressions to explain the labour force participation of wives in young families and of young family members (usually living in parental homes) are also presented. \$1

- 13-544 **Income Distributions by Size in Canada, 1969.** Occasional. Bil. 90 pp.

Estimates of family and individual incomes by size of income and by major source, region, age, sex and other characteristics. Data are comparable to the 1967 publication (Cat. 13-534) and pertain to all individuals and families in private households. \$1

- 13-544 **Répartition du revenu au Canada selon la taille du revenu, 1969.** Hors série. Bilingue. 90 pages.

Estimations du revenu des familles et des particuliers selon la taille du revenu, la principale source de revenu et en fonction de la région, de l'âge, du sexe et d'autres caractéristiques. Les données sont comparables à celles de la publication de 1967 (13-534 au catalogue); elles portent sur l'ensemble des particuliers et des familles dans les ménages privés. \$1

- 13-545 **Federal Government Activities in the Human Sciences.** Occasional. Bil. 44 pp. (Published annually (13-205) beginning with the 1971-1973 issue).

Results from a survey of departments and agencies of the Federal government which devote resources for the support of activities in the field of human sciences. Data were collected for the following activities: research and development (R&D), general data collection, scientific information, education support, and operations studies. 75¢

- 13-545 **Activités de l'administration fédérale en sciences humaines.** Hors série. Bilingue. 44 pages. (Publication annuelle (13-205) à partir de la livraison de 1971-1973).

Résulte d'une enquête couvrant la plupart des organismes et ministères fédéraux affectant des ressources au soutien d'activités dans le domaine des sciences humaines. Des données furent recueillies pour les activités suivantes: recherche et développement (R & D), cueillette de données, information scientifique, aide à l'éducation et études d'opérations. 75¢

- 13-546 **Family Incomes (Census Families), 1969.** Occasional. Bil. 24 pp.

Estimates of incomes of families and persons not in families by size of income and by major source, region, sex, age and other characteristics. The concept of family used in this report is identical to that employed in Canadian censuses. 31: Manufacturing — Fabrication

- 31-509 **Industrial Migration in Ontario.** Occasional. 154 pp.

Examines the application of Markov chain models to the forecasting of two aspects of industrial activity: the relocations of manufacturing establishments, and their growth as measured by number of employees. The modelling is based on data derived from the annual Census of Manufactures spanning the period 1961-65. The study also explores techniques of improving the accuracy of Markov chain models for projective purposes. A basic exposition of the theory is given, and the statistical tests to verify the assumptions of order and stationarity are explained. \$1
